BioMers, the Creators of SimpliClear®, announces Certification of TRIOS® 3Shape Scanning Technology

Copenhagen and Singapore, 14 August 2014 – BioMers is pleased to announce that the TRIOS® 3Shape digital impression system has been certified for use with its new SimpliClear® Digital orthodontics solution. SimpliClear® is based upon the world's only clinically proven clear archwire system. It is designed to a patient's individual treatment needs, delivering superior treatment performance with unmatched aesthetics.

"The accuracy and precision afforded by 3Shape TRIOS® scans provides optimal input for SimpliClear's fully digitized platform, maximizing the clinical effectiveness of the system", says George Aliphthiras, acting Chief Executive Officer for BioMers. "TRIOS's quick scans and ease of use offer customers and patients an improved and comfortable experience."

"3Shape is always seeking new ways to increase the value of TRIOS® for our customers," says Allan Junge Hyldal, Director for the 3Shape Orthodontics Business Unit. "We are very happy that this collaboration between BioMers and 3Shape makes it possible for doctors to benefit from the unique strengths of our respective products and companies."

For further information about 3Shape TRIOS®, please refer to www.3shapedental.com/trios.
